# Our Values

## **IDEAS**

Ideas accompany all our products at every stage of their life cycle: from formulations to advertising campaigns.

## **SOLUTIONS**

Solutions are the result of our creative approach to health and the brave use of innovation.

## **INNOVATION**

Innovative products of the Company help to change the way our customers think.

## **ASSISTANCE**

Preserving health is a collaboration between the consumer and our product, thus the concept of “assistance” is the key one.

## **DIALOGUE**

Easy interaction with our customers is the key to the product success.

# Concept and Development

AKVION – a pharmaceutical company specialising in unique products for a healthy lifestyle.

We have created a few dozen original products that have gained widespread recognition among consumers and specialists. We help them deal with problems that arise during the common-cold season, maintain the reproductive system health, preserve youth and beauty, ensure the normal growth and development of children. Our products are tasty, easy-to-use and as natural as they can be.

akvion.ru

The Dyshi product family is intended for use during cold season.

For the protection of the whole family!

# Dyshi®

IN THE COMMON-COLD SEASON

## Dyshi SERIES

The Dyshi line is designed to provide timely help to adults and children during the cold and flu season. We have simple, easy and effective solutions for almost any problem that families may face during this period. The Dyshi products is the great choice for mothers, who want to take care of their families and protect them, eliminate the effects of exposure to cold, or support the body during common cold.

- Non-medical care during the cold and flu season.
- Based on herbal ingredients.
- Combination of the power of nature and modern technology.

**BREATHE WITH HEALTH!**

## Dyshi Propolis Drink

Warm drinking when having a cold

- ✓ Without paracetamol.
- ✓ Based on natural ingredients.
- ✓ Recovers the loss of fluid in the body.
- ✓ Does not cause sleepiness and lethargy.
- ✓ Easy and quick to prepare in any situation, especially at work.
- ✓ Nice natural taste.

## Dyshi Linden Drink for Children

Warm drinking when having a cold

- ✓ Without paracetamol.
- ✓ Based on natural ingredients.
- ✓ Recovers the loss of fluid in the body.
- ✓ Contains no preservatives, artificial colours and flavourings.
- ✓ Nice natural taste.

## Dyshi Gel for the Skin Around the Nose, for Children

For irritated and dry skin associated with a runny nose

- Thanks to its ingredients, the gel:
- ✓ Nourishes and moisturizes the skin (vitamin E and D-panthenol),
  - ✓ Reduces skin irritation and protects against inflammation (extracts of chamomile flowers, linden and violet),
  - ✓ Has an antiseptic effect (essential oils of eucalyptus, mint and cloves).

## Drugs for the reproductive system

Taking care on the reproductive system is part of a healthy lifestyle. With the proper support of the reproductive system, you can eliminate any disorders in the sexual sphere, reduce the risk of their occurrence, become a happy parent of a healthy child, and slow down age-related changes, as well as preserve your health for many years. Our drugs for the reproductive system are designed for men and women in different periods of their life.

# SPEROTON

For boosting male fertility

- Passed 9 clinical studies.
- Increases the likelihood of conception by 15 %<sup>1</sup>.
- Improves semen performance:
  - Increases the number of spermatozooids with the progressive movement by 49,3 %<sup>1</sup>
  - Increases the mobility of spermatozooids by 86,3 %<sup>2</sup>
  - Increases the concentration of spermatozooids by 43,2 %<sup>1</sup>
  - Improves the morphology of spermatozooids<sup>1</sup>.
- May be used in the preparation to the in vitro fertilization.

# PREGNOTON

To increase the probability of conception

- Useful for women with reduced fertility:
  - Exposed to continuous stress and increased loads.
  - After taking oral contraceptives.
  - Aged 35 years or more.
- Improves the female reproductive system condition.
- During preparation to the in vitro fertilization, increases the likelihood of pregnancy by 2 times<sup>3</sup>.

# PREGNOTON MAMA

For women before, during and after pregnancy

# ZHIDKIJ UGOL®

Liquid Charcoal

## Complexes with the Zhidkij Ugol pectin

Zhidkij Ugol is a series of sorbents based on natural apple pectin.

Pectin captures harmful substances of various origin in the gastrointestinal tract (toxins, decomposition products of drugs, allergens, toxic metabolic products, etc.) and removes them from the body, while preventing them from being absorbed into the blood.

Also, all substances, which are harmful to the human body, have specific detrimental effect on the gastrointestinal microflora. Therefore, prebiotic inulin is added.

Its effectiveness against intestinal infections, allergies and parasites has been proved by various clinical studies. Unlike most sorbents, it does not cause any problems in the gastrointestinal tract.

[g-ygol.ru](http://g-ygol.ru)

# ZHIDKIJ UGOL®

Liquid Charcoal

## NEW GENERATION SORBENTS

### Double Effect

Removes harmful substances and restores the intestinal microbiota.

### Nice Apple Taste

Does not cause any discomfort during prolonged use.

### Easy-to Use Form

Available in powder form for making a beverage.

### Quick Effect After Intake

A liquid form with the active substances immediately reaches the stomach and starts to act.

### Proven Effectiveness

Effectiveness of the Zhidkij Ugol sorbent for children with atopic dermatitis, intestinal infections and lambliaosis has been proved in clinical studies.

**vitime**<sup>®</sup> **SPORT**

## Sports and active lifestyle

VITIME is the line of sports nutrition designed to meet the needs of the body before, during and after physical activities. The VITIME line includes protein shakes, energy tonics, chondroprotective compounds, as well as vitamin and mineral complexes.

All Vitime products are easy to prepare (without a shaker or a mixer) and contain approved ingredients in safe dosages.

[vitime.pro](http://vitime.pro)

## WHEY PROTEIN

Protein shake

100 % whey protein concentrate with dietary fiber to improve digestion

Ingredients:

- Stimulates the muscle mass growth .
- Accelerates recovery after loads.
- Increases the effectiveness of strength training.

**Active ingredients:** whey protein concentrate, inulin, sodium alginate and pectin.

## VEGAN PROTEIN

Soy protein isolate

Chocolate flavored soy protein isolate for vegetarians

- Meets daily needs for protein, including in vegetarians.
- Accelerates the muscle mass growth.
- Prevents the loss of muscle mass during diet or with age.

**Active ingredients:** soy protein isolate.

## BCAA

A unique complex of amino acids (branched-chain amino acids)

A unique complex of branched-chain amino acids with a Bioperine complex

- Contains 4 g of branched-chain amino acids (2:1:1) in 1 serving.
- Branched-chain amino acids:
  - Protect all muscles from any destruction by slowing down the process of catabolism
  - Accelerate recovery after loads.
  - Increase strength training efficiency.
- Patented Bioperine<sup>®</sup> black pepper extract increases the bioavailability of amino acids by 30 % or more.

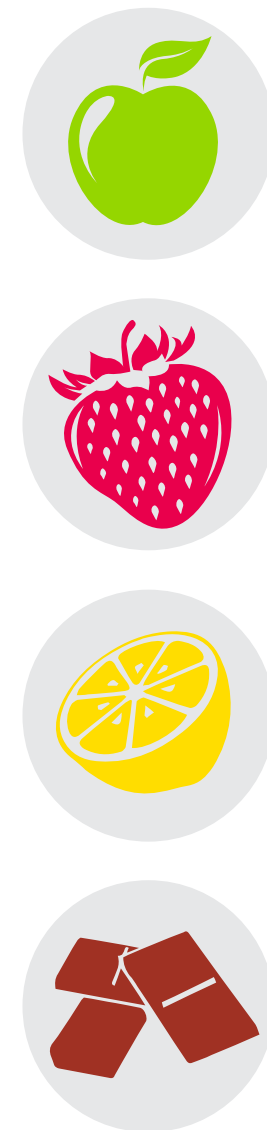

**Active ingredients:** Aminoblast complex of amino acids: L-leucine, L-valine, L-isoleucine, Bioperine black pepper extract.

# vitime<sup>®</sup> SPORT

## WHEY ISOLATE

Protein shake

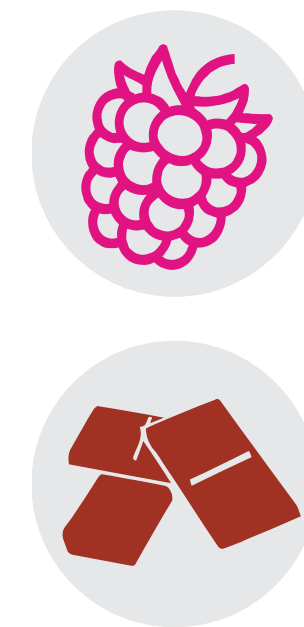

Specialized food product for athlete nutrition

- 1 serving contains 24 grams of protein.
- Contains enzymes for better absorption.
- Whey protein isolate:
  - Stimulates the muscle mass growth.
  - Accelerates recovery after loads.
  - Increases strength training efficiency.

**Active ingredients:** whey protein isolate, Digezyme enzyme complex (alpha-amylase, neutral protease, lactase, lipase and cellulase).

## MICELLAR CASEIN

Protein shake

A unique source of micellar casein with inulin

- 1 serving contains 25 grams of protein.
- Ingredients:
  - Maintain a high level of amino acids in the blood during a long time.
  - Stimulate the muscle mass growth.
  - Accelerate recovery after loads.

**Active ingredients:** milk protein concentrate and inulin.

## L-CARNITINE 3000

L-carnitine in high dosage

Liquid L-carnitine in high dosage

L-carnitine increases the metabolism of fats.

Results:

- Increased energy production.
- Increased endurance of the body.
- Improved strength training efficiency.

**Active ingredients:** L-carnitine tartrate and L-carnitine.

# vitime<sup>®</sup> SPORT

## ARTHRO

A complex of chondroprotective compounds

Arthro complex of chondroprotective compounds with orange flavor

Ingredients:

- STIMULATE regeneration of the cartilage tissue.
- PROTECT joints at increased loads.
- PROVIDE joints with nutrients.

**Active ingredients per 1 sachet:** glucosamine (750 mg), chondroitin sulfate (400 mg), boswellic acids, methyl sulfonylmethane, vitamin C, vitamin E, manganese and selenium.

## ARTHRO + CURCUMIN

A unique arthro complex with curcumin

A unique arthro complex with curcumin

Ingredients:

- STIMULATE regeneration of the cartilage tissue.
- PROTECT joints at increased loads.
- CONTRIBUTE to reducing arthritis.

**Active ingredients:** glucosamine (1400 mg in 5 capsules), chondroitin sulfate (800 mg in 5 capsules), curcumin (150 mg in 5 capsules) and boswellic acids (60 mg in 5 capsules).

## ENERGY TONIC + GUARANA

Energy tonic with guarana

A cherry flavored energy drink with guarana.

Ingredients:

- INCREASE energy production.
- ACCELERATE metabolism and recovery.

**Active ingredients per 1 sachet :** guarana seed extract (contains caffeine), L-carnitine tartrate, eleutherococcus root extract, ginseng root extract, lemongrass fruit extract.

# vitime<sup>®</sup> SPORT

## ANTIOXIDANTS

Antioxidant complex

6 powerful natural antioxidants in high dosages

Ingredients:

- Protect all cells and tissues against oxidative stress.
- Restore energy generation.
- Prevent age-related changes.

**Content of active ingredients in 2 capsules:**

- Coenzyme Q10 – 45 mg
- Lycopene – 5 mg
- Beta-carotene – 5 mg
- Rutin – 30 mg
- Vitamin E – 15 mg
- Vitamin C – 180 mg

## MAN

Vitamin and mineral complex for men

Vitamin and mineral complex for men during physical activities

- Supports and restores the male body.
- Optimal dosages for regular exercise.
- Advanced formula for daily intake:
  - 13 vitamins + 9 minerals + lycopene.
  - 5 amino acids: L-leucine, L-arginine, L-isoleucine, L-valine, L-glutamine.
  - Digezyme multienzyme complex.
